

Mastering

Studio Innovations offers professional CD mastering and Video soundtrack mastering in a relaxed and creative environment.

Studio Innovations offers a wide range of music recording and production services including recording, CD-mastering, video filming and post-production and soundtrack mixing and mastering. All mastering is performed digitally using some of the best mastering equipment and software available. All audio formats are accepted. Analogue recordings will be digitised prior to mastering.

Voice overdubs with classic Neumann, AKG, Beyer, Sennheiser, Shure and other microphones.

Music recording in our three studios using classic valve and solid-state pre-amplifiers and microphones.

RECORDING - PRODUCTION - ARRANGING - MASTERING - EDITING - POST PRODUCTION
