

Music Recording & Production

Studio Innovations offers professional recording and production facilities with the best analogue & digital recording equipment. Located just 25 minutes south of Perth CBD, the studios provide a relaxed and creative environment in a rural setting.

Studio 1:

An air-conditioned, non-smoking sound space suited to instrumental and vocal recording in an acoustically controlled environment.

Studio 2:

This large, air-conditioned, 80sqm room with flagstone floors and high raked ceilings suits situations where a “live” sound is desired. Complete with a Yamaha C7 Grand Piano it is ideally suited to live bands, jazz, choral and orchestral recordings.

Control Room:

Acoustically designed for precise monitoring, our air-conditioned control room provides accurate monitoring, mixing, editing and mastering facilities.

RECORDING - PRODUCTION - ARRANGING - MASTERING - EDITING - POST PRODUCTION

Monitoring:

Control room monitoring is provided by Dynaudio AIR 20 reference monitors with an AIR-sub, and JBL 4328 near-field monitors. Studio monitoring is via Beyerdynamic DT250, DT150 and Sony MDR-7509HD professional headphones.

Four completely independent monitor mixes are available to artists via 16 separate headphone amplifiers, enabling each performer to hear themselves clearly when recording as an ensemble.

Recording Equipment:

The primary recording system comprises 16-channels of Lynx Aurora mastering A-D's and 8 channels of Focusrite ISA-428 A-D's, plus an additional 8 channels of AES direct digital input - a total of 32 simultaneous recording channels. Recording is direct to hard disk allowing an almost unlimited number of tracks. The studio has a wide range of solid-state and valve preamplifiers, microphones and outboard processing. A current equipment list can be downloaded from our website www.studioinnovations.com.au or by contacting us via phone or email.

Facilities:

The studio is located in five acres of beautiful natural bush comprising Jarrah, Tuart and Banksia; refreshments area with microwave, fridge and coffee machine; outside entertaining area with BBQ.

What we provide:

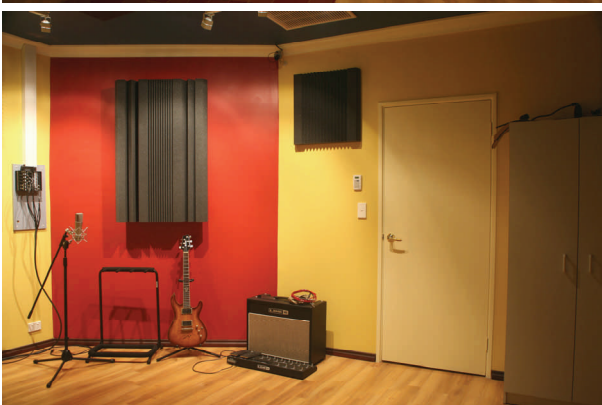

(1) We can provide the complete service from recording your music to you receiving a mastered CD ready for duplication; or (2) Any of the individual components including recording, production, mixing, arranging, mastering, video post-production etc. We also provide a complete filming and video editing service, ideal for filming live performances and music videos. Please contact us for further details.

Prices:

Our current commercial studio rates for recording, mixing, mastering and post-production are published on our website. Discounted rates are also available - please contact us for details.

Questions:

Please don't hesitate to contact us if you have any questions. Our office hours are 9am to 5pm, Mondays to Fridays, but the studio is frequently open in the evenings and on weekends so feel free to call us at any time.
